

K-love is a postitive force on our airwaves, open to every age and contains no vulgar language, or distateful commercials.

It is rare to have such a positive force available to everyone, and the up lifting message will be missed by supporters of the programing.

K-love is trying to give each person positive music to listen to, along with what I believe to be strong moral values that was the founding fathers idea for our country.

Please do not replace our K-love signal with LPFM translator service.  
Thank-you for listening to my point of view.  
Sandy Triplett
